

# Figures

- 1 • Number figures according to the order in which they are first mentioned in the main text.
- 2 • Clearly label all axes, giving both the measure and the unit of measurement.
- 3 • Smallest type size: 8pt.
- 4 • Maximum width: 7 inches in portrait, 9 inches in landscape mode.
- 5 • Multi-panel figures: capital letters followed by closing parenthesis, completely above and
- 6 to the left of the panel.
- 7 • Use log-scale when plotting relative measures of effects.
- 8 • Figure titles and legends should be submitted as single paragraph.
- 9 • The text of figure legends typed after the reference list.
- 10 • Save and submit each main text figure as an individual file (PDF with fonts embedded).

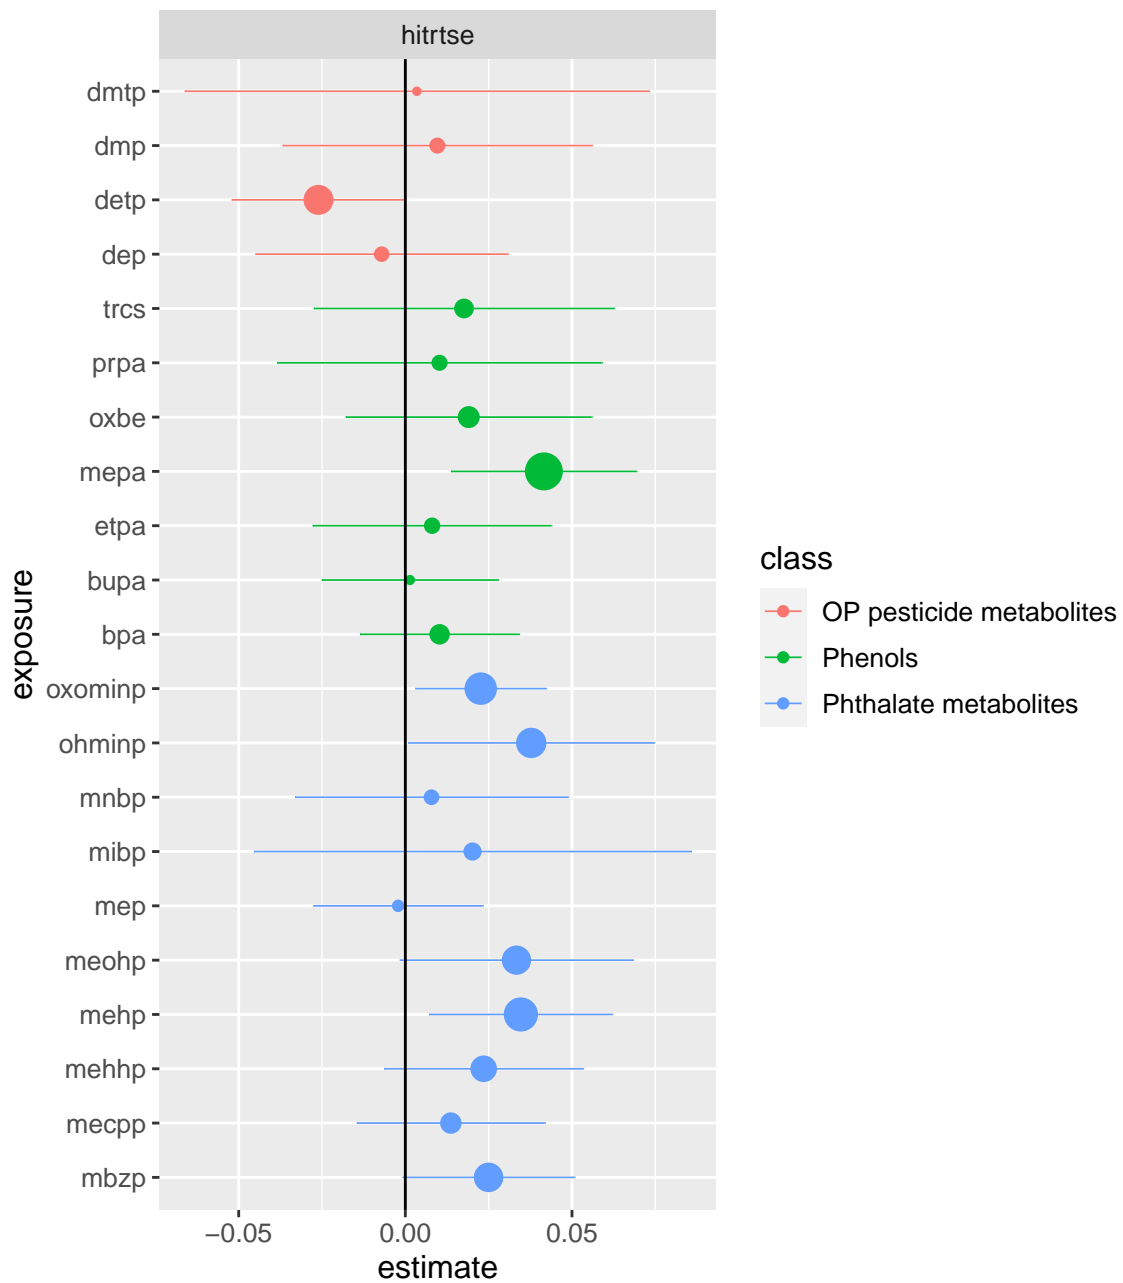

## 11 1 Participants

- 12 • Flow diagram: number of individuals at each stage of study. Report numbers potentially
- 13 eligible, examined for eligibility, confirmed eligible, included in the study, completing
- 14 follow-up, and analysed.

## 15 2 Main results

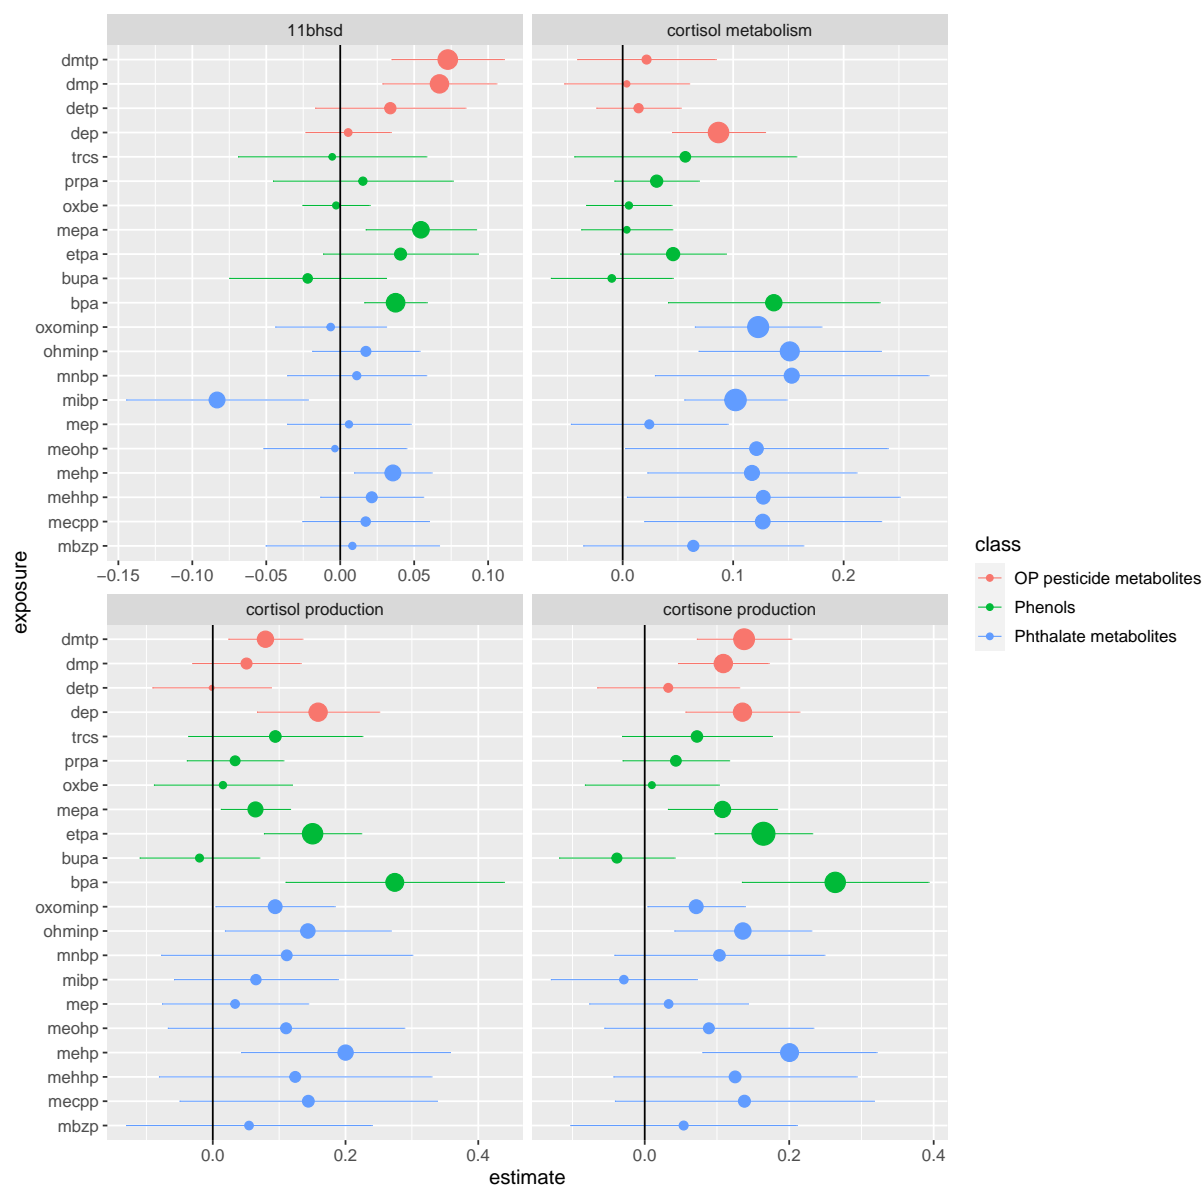

- 16 • Forest plot for RQ2 (group by chemical class, and for each chemical group bars for
- 17 metabolites) and RQ3.

### 18 2.1 Marginal comparisons

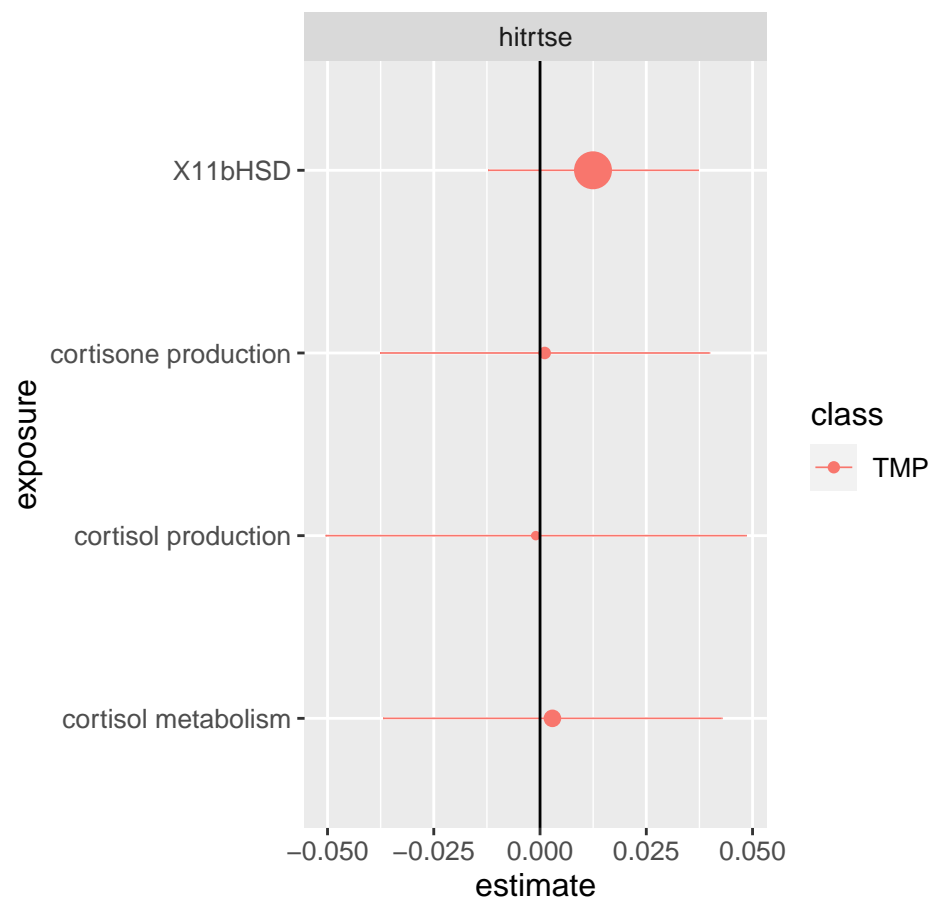

Size of the dots based on the S value.
